DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1,2,3,4,7,8,9,10,11,13,19,20,22,23,24,25,26,27 and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chiu et al. (GB 2365955, US 6,101,823, US 6,338,257).

Chiu et al. disclose an evaporative condensing apparatus. The apparatus comprises a metal coil condenser, the condenser coils covered with absorptive material, a compressor, water supply system, water collect tank and fan. The absorptive material can be obtained from non-woven cloth, cloth, natural fibers, synthetic fibers, reclaimed fibers, inorganic fibers, etc. In regard to the water treatment, Examiner takes the official notice that these treatments are well known in the prior art. In regard to the helical coil, the evaporative condenser can be used to other kind of existing condenser. Under the principals of inherency, if a prior art device, in its normal and usual operation, would necessarily perform the method claimed, then the method claimed will be considered to be anticipated by the prior art device. When the prior art device is the same as a device described in the specification for carrying out the claimed method, it can be assumed the device will inherently perform the claimed process. *Ir re King*, 801 F.2d 1324, 231 USPQ 136 (Fed. Cir. 1986).

Allowable Subject Matter

3. Claim 18 is allowed.
4. Claims 5,6,12,14-17 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (703) 308-0275 (571 272-4809 after 11/20/2004). The examiner can normally be reached on Tuesday-Friday from 7:00 to 5:30.
